Comments:

The company is managed largely via institutions players as the shareholding pattern of the company comprises as (i) Promoters – 36.9%, (ii) Institutions – 41.4% and (iii) Non Institutions holdings – 21.6%

We have checked the SEBI promoter ceiling criteria of 75%. The Company's Promoter holding being 37.3% is well within the compliance of this rule. Further, we do not find any "Promoter" being classified as "on-Promoter".

The shareholding of Promotors got reduced from 44% in FY17 to 37% in FY 21 and is being stable since then. There was no reduction in promoter shareholding in last four years.
